# 2<sup>nd</sup> International NeuronLine Conference

## Frontiers in Neuroscience Teaching & Research

November 24, 2017

9:00 - 17:00

Aula Magna Rettorato

Via Verdi 8,

University of Turin

UNIVERSITÀ  
DEGLI STUDI  
DI TORINO

Dipartimento di Scienze Cliniche e Biologiche

Dipartimento di Scienze della Vita  
e Biologia dei Sistemi

Centro Interdipartimentale di Studi  
Avanzati di Neuroscienze

NICO  
Neuroscience Institute Cavalieri Ottolenghi

## Program

### Advances in Neuroscience teaching

*Chair: Isabelle Perroteau, University of Turin, Italy*

**9:00-9:40**

**The Euro-Mediterranean Master of Neuroscience  
on-line** Marc Landry (Bordeaux University, France)

### Advances in Neuroscience research

*Chair: Silvia De Marchis, University of Turin, NICO, Italy*

**9:40-12:40**

**From molecules to behaviour in  
physiology and pathology**

**Relaxin-3 and its role in neuroendocrine function  
and arousal** Anna Blasiak (Jagiellonian University,  
Krakow, Poland)

**Development of the relaxin-3 innervation of the  
septal area** Francisco E. Olucha Bordonau (Jaume I  
University, Castelló de la Plana, Castellón, Spain)

**Insulin signalling in a neuroinflammation model**  
Ana Maria Sanchez Perez (Jaume I University, Castelló  
de la Plana, Castellón, Spain)

### Coffee break

**Circadian clocks and feeding** Patrick Vuillez  
(Strasbourg University, France)

**Organization of the vomeronasal circuits mediating  
sexual attraction in rodents** Enrique Lanuza (Valencia  
University, Spain)

**Acid Sensing Ion Channels-3 is a polymodal sensor of  
inflammatory mediators in inflammatory pain**  
Jacques Noël (Université de Nice Sophia Antipolis,  
France)

**KCC2: a pharmacological target for morphine-  
induced hyperalgesia** Francesco Ferrini (University of  
Turin, Italy)

## NeuronLine Strategic Partnership

**4CFU recognized to PhD students  
for attendance to this meeting**

PhD in Neuroscience  
University of Turin

**Registration is free, but requested**

link to complete the registration form:  
<https://form.jotformeu.com/73092629960363>

**Organizing committee:**

I. Perroteau, M. El Soury (DSCB, University of Turin)  
S. De Marchis, I. Crisci (DBios, University of Turin, Nico)

Contacts: [silvia.demarchis@unito.it](mailto:silvia.demarchis@unito.it)

**14:30–17:00**

**The effect of yoga in correctional settings – new evidence from a RCT** *Nora Kerekes (West University, Göteborg, Sweden)*

### **Stem cells, neurodegenerative diseases and repair**

**Neural stem cells: from neurobiological mechanisms to therapeutic opportunities** *Mariagrazia Grilli, (University of Piemonte Orientale, Novara, Italy)*

**Neurogenic potential of striatal astrocytes in health and disease** *Federico Luzzati (University of Turin, NICO, Italy)*

**Peripheral nerve injury, repair and regeneration"** *Stefania Raimondo (University of Turin, Italy)*

**iPS cells for studying the neurodegenerative Charcot-Marie-Tooth disease** *Josema Torres (University of Valencia, Spain)*
